

State Route 33 Devil's Den Rehabilitation Kings County

Project Purpose:

This purpose of this project is to improve safety and operations. At completion, this project will correct drainage issues and provide a road design that meets current design standards. This project would assist with previous flooding issues during winter months on segments of Route 33 and would enhance safety by providing standard shoulders. Motorist will benefit from safety improvements, local residence will experience traffic congestion relief, and the movement of services and goods will greatly improve through highway continuity improvements.

Project Description:

This project will widen and rehabilitate State Route 33 in Kings County from the Kern County line to State Route 41. This project proposes to dig out and repair localized areas of failure, seal cracks, overlay the repaired pavement with asphalt and widen existing shoulders in each direction of travel to eight feet.

Construction Cost: \$6.6 Million

Begin Construction: September 2007

End Construction: April 2009

Funding Sources: State Highway Operation and Protection Program (SHOPP)-Roadway Rehabilitation Program
